

# Annual Report

of the

Medical Officer of Health

For the Year 1938

## BOROUGH OF ALTRINCHAM

### PUBLIC HEALTH COMMITTEE.

Chairman:

Councillor A. WHITLEY.

Vice-Chairman:

Councillor J. H. Cosgrove.

Members:

HIS WORSHIP THE MAYOR (Alderman W. Waterhouse, J.P.).

Right Honourable THE EARL OF STAMFORD.

Alderman C. Applewhite. Councillor S. Dawson.

S. N. GARNER. T. FARRAR.

R. H. LEE. T. C. HANDFORD.

E. Webb. P. Hewitt.

A. Weston. H. Keay.

Councillor W. H. Anderson. J. S. Pearson.

H. Bailey. A. Vesey, J.P.

T. P. Bell-Houlden. W. H. Walker.

W. G. H. BIDDLE.

J. L. WARREN.

T. CLAYTON, C.C.

R. S. WATSON.

#### MATERNITY AND CHILD WELFARE COMMITTEE.

Chairman:

Councillor J. H. Cosgrove.

Vice-Chairman:

Councillor W. H. Anderson.

Members:

HIS WORSHIP THE MAYOR (Alderman W. Waterhouse, J.P.).

Right Honourable THE EARL OF STAMFORD.

Alderman S. N. GARNER. Councillor S. DAWSON.

R. H. LEE. T. C. HANDFORD.

E. Webb. H. Keay.

Councillor T. P. Bell-Houlden. J. S. Pearson.

W. G. H. BIDDLE. W. H. WALKER.

Councillor A. WHITLEY.

Co-opted Members:

Mrs. Garner, Mrs. O'Neill, Miss A. Percival, and Mrs. T. Shaw.

### OFFICIALS OF THE PUBLIC HEALTH DEPARTMENT.

R. REID DUNCAN, M.B., CH.B., D.P.H.

Medical Officer of Health.

Medical Superintendent of Isolation Hospital.

Medical Officer to the Child Welfare Centres and Ante-Natal Clinic.

JAMES E. CRICKMORE, A.R.S.I., M.S.I.A.

Chief Sanitary Inspector.

Inspector under Shops' Acts.

Certificate of the Royal Sanitary Institute.

Certificate for the Inspection of Meat and other Foods.

KENNETH ASHLEY, A.R.S.I., M.S.I.A.

First Additional Sanitary Inspector.

Certificate of the Royal Sanitary Institute

Certificate for the Inspection of Meat and other Foods.

JOHN F. CUBBON, A.R.S.I.

Second Additional Sanitary Inspector.

Certificate of the Royal Sanitary Institute.

MISS H. W. BARDSLEY, S.R.N.

Senior Health Visitor.

Infant Protection Visitor.

Holds New Certificate of the Royal Sanitary Institute.

Maternity Certificate.

Miss DORIS WHITWORTH, S.R.N., S.C.M., Q.N.

Additional Health Visitor.

Holds New Certificate of the Royal Sanitary Institute.

K. VERNON BAILEY, M.D., M.R.C.P.

Consulting Obstetrical Surgeon for Puerperal Sepsis and difficult Obstetrical Cases.

BARBARA J. JOHNSON, L.R.C.P.I., L.R.C.S.I., L.M.

Post Natal Clinic.

MISS ALLEN, S.R.N., C.M.B.

Matron, Isolation Hospital.

BRIAN OVERBURY.

Clerk, Sanitary Department.

MISS DOROTHY M. WILD.

Clerk, Maternity and Child Welfare Department.

## Annual Report for 1938

Public Health Department, Town Hall,

ALTRINCHAM.

The Mayor, Aldermen and Councillors of the Borough of Altrincham.

Your Worship and Gentlemen,

I have the honour to present the second-Annual Report of the Municipal Borough of Altrincham dealing with the health of the Borough for the year 1938.

It is directed by the Ministry of Health that the Report be drawn up on the lines indicated in Circular 1728.

The information to be given (with the exception of those items for which full particulars are requested) should be limited to a record of alterations, improvements, or developments which have taken place during the year.

#### SECTION A.

#### Statistics and Social Conditions of the Area.

#### 1. General Statistics

Area 3,	519 acres
Population (Registrar General's Estimate)	37,350
Number of Inhabited Houses (per Rate	
Books, end of 1938)	11,061
Rateable Value (at 31st December, 1938)	£292,610
Sum represented by a penny rate	£1,165

The Borough of Altrincham is situated in the northern part of Mid-Cheshire, 8 miles from the centre of the City of Manchester. It is bounded by the City of Manchester, the Borough of Sale, the Urban District of Bowdon, the Urban District of Hale and the Rural District of Bucklow.

Altrincham is an attractive town set at the very gateway from the North to the rural beauty and charming scenery of Cheshire. It forms the natural centre of a neighbourhood rapidly growing in population and is the shopping centre of this area. A public market is held on two days of the week, Tuesday and Saturday, and has proved itself a great boon to the inhabitants of the Borough, and is a profitable source of revenue to the Local Authority.

During 1938 all skilled labour in the heavy engineering industry has been fully engaged. The activity in the building trade has continued during 1938, no increase of unemployment being registered in this industry.

#### 2. Vital Statistics

#### BIRTHS.

The number of Births registered in, and allocated to, the Borough of Altrincham in 1938 is 616.

Live Births	616	(M.	325,	F.	291)
Still Births	26	(M.	10,	F.	16)
Legitimate Births	594	(M.	313,	F.	281)
Illegitimate Births		-			10)

### STILL BIRTHS.

Legitimate Births	26 (M	[. 10, F.	16)
Illegitimate Births	0 (M	[. 0, F.	0)

representing a Live Birth Rate of 16.4 per 1,000 of the population, and a Still Birth Rate of 0.69 per 1,000 of the population.

The illegitimate Live Births number 22, a percentage of 3.5 of the total.

The Birth Rate for England and Wales for 1938 exceeds by two decimal points that of 1937, while the Birth Rate of the Borough of Altrincham has increased by 1.9 per 1,000 of the population.

#### DEATHS.

The total number of Deaths corrected for Outward and Inward transfers is M. 225, F. 203—428.

Crude Death Rate per 1,000 of the population is 11.4.

Comparable Death Rate per 1,000 of the population (i.e., Crude Death Rate x Areal Comparability Factor 1.06) 12.0.

The number of Deaths of Infants under one year is 37 (M. 22, F. 15) being an Infantile Mortality Rate of 60 per 1,000 Live Births.

25 of these Infantile Deaths are attributed to Congenital Debility, Premature Birth, Malformations, etc., (M. 14, F. 11).

3 Infantile Deaths (M. 1, F. 2) were Illegitimate representing an Illegitimate Infantile Mortality Rate of 136 per 1,000 Illegitimate Births.

Birth Rates, Death Rates, and Infantile Mortality Rates. Showing comparison between Altrincham and other areas.

Area	Birth Rat	e per 1,000 ulation	Annual	T
	Live Births	Still Births	Death Rate per 1,000 of Population	Infantile Mortality Rate
England and Wales	15 · 1	0.60	11.6	53
<ul><li>126 County Boroughs and Great Towns</li><li>148 Smaller Towns</li></ul>	15.0	0.65	11.7	57
25,000—50,000 pop.	15 · 4	0.60	11.0	51

#### SECTION B.

## GENERAL PROVISION OF HEALTH SERVICES. FOR THE AREA.

### 1. (a) Laboratory Facilities.

No change has taken place in the services under this heading.

During 1938, 1,090 specimens were reported on by the Department of Bacteriology and Preventive Medicine of the University of Manchester.

1,029 Throat and Nose swabs for Diphtheria were examined of which 203 were positive. 33 swabs were examined for Haemolytic Streptococci.

- 5 Agglutination Tests for suspected Typhoid infection were reported on, and 3 samples of faeces.
- 2 Samples of milk were submitted for Bacterial count and B. Coli.
- 2 Samples of Cerebro-Spinal Fluid were reported on.
- 1 Specimen of Human Sputum was examined for Tuberculosis being found negative.
- 1 Sample of Pus was sent for investigation.
- 8 Samples of Water were sent for bacteriological report and 6 samples for chemical investigation.

Sterile throat swabs, blood collection outfits, diphtheria antitoxin and prophylactic material are kept at the Town Hall for use, within the Borough, by Medical Practitioners.

During 1938, 135 specimens of Sputum were bacteriologically examined for Tubercle Bacilli by the Public Health Laboratory of the County of Chester. 22 of these were positive.

## (b) Ambulance Facilities.

There have been no changes during 1938.

## (c) Nursing in the Home.

There have been no changes.

## (d) Treatment Centres and Clinics, including Clinics solely for diagnosis or consultation.

There are two Child Welfare Centres.

- 1. Mountlands Welfare Centre.
  - 2 Sessions are held each week on Mondays and Wednesdays.
  - 1 Ante-Natal Clinic is held on the 2nd and 4th Tuesdays in each month.
  - 1 Post-Natal Clinic is held on the 3rd Tuesday in each month.
- Park Road Welfare Centre.
   Sessions are held each week, two on Tuesdays and one on Thursdays.

Medical Consultations were as follows:-

	Under one year	Over one year
Mountlands Welfare Centre—1207.	of age.	of age.
(M. 685, F. 522)	727	480
Park Road Welfare Centre—674.		
(M. 360, F. 314)	351	323
Total—1881.		
(M. 1045, F. 836)	1078	803

#### Ante-Natal Clinic.

The number of examinations at the Clinic was 332, 146 expectant mothers having attended.

## (e) Hospitals-Public and Voluntary.

There has been no change.

#### 3. Maternity and Child Welfare.

## (I) Midwifery and Maternity Services.

It is now expected that all pregnant women, not under the care of a medical practitioner shall attend, accompanied by the midwife of their choice, at the Ante-Natal Clinic.

## (II) Institutional Provision for Mothers or Children.

None.

#### (III) Health Visitors.

No change.

## (IV) Child Life Protection.

No change.

## (V) Arrangements for Dental, Orthopaedic, etc., cases.

An Orthopaedic Clinic is held each week at the Altrincham General Hospital under the charge of a specialist in Orthopaedics. This Clinic is of inestimable value to the Borough and the Local Authority is a subscriber to its funds.

Dental Treatment can now be obtained for expectant and nursing mothers and children under 5 years of age in families where the net income would allow of rate-aided milk free of cost.

## Home Helps.

A Voluntary organisation exists in the Borough and the Corporation gives a donation to its funds.

## MATERNITY AND CHILD WELFARE.

ANNUAL REPORT, 1938.

To the Chairman and Members of the Committee, Ladies and Gentlemen,

I beg to submit my report of the work of this department from January 1st to December 31st, 1938. Number of live births notified ... Males 304 Females 260 Total 564 11 Males Number of stillbirths notified ... 14 Total Females Total notified 589 530 Total notified during 1937 VISITS BY SENIOR HEALTH VISITOR. #### IMMUNISATION CLINICS.

Number granted in 1937—689 cases.

The above Clinics commenced on the 12th October, 1938, one session being held weekly at each Centre, Wednesday morning at Park Road, Thursday morning at Mountlands.

The number who were completely immunised on 31st December, 1938 was **766**.

During the year, on the 9th July, 1938, The Mountlands was opened by the Mayoress, Lady Stamford. The opening was attended by a large number of mothers and babies.

The first session was held on Monday, 11th July, 1938.

#### SOCIAL ACTIVITIES.

During the year several social evenings have been held at each Centre.

A Garden Party was held on September 10th, 1938, at the Mountlands.

The Annual Picnics were as follows:—

Park Road Centre to Rhyl on Wednesday, 29th May, 1938.

The Mountlands to Blackpool on Thursday, 23rd June, 1938.

All of which were much appreciated by the mothers.

The decrease in the number of visits paid is due to change of staff and Immunisation Clinics.

I wish to express my appreciation of the work of the Voluntary Helpers at the Clinics and that the thanks of the Committee be conveyed to them.

H. W. BARDSLEY,

Senior Health Visitor.

## ANNUAL REPORT OF THE CHIEF SANITARY INSPECTOR FOR THE YEAR 1938.

Sanitary Department, Town Hall,

ALTRINCHAM.

February, 1939.

The Mayor, Aldermen and Councillors of the Borough of Altrincham.

Your Worship and Gentlemen,

I beg to submit my Annual Report upon the sanitary administration of the district for the year ending December 31st, 1938.

#### SANITARY CIRCUMSTANCES OF THE AREA.

#### Water

The district is supplied with water by the Manchester Corporation. With the exception of a few isolated premises the whole of the district is on a pipe water supply.

Sixteen samples of water have been examined with the following results—

January 13th, 1938—Water from mains of the Manchester Corporation B. Coli found in 100 c.c.

January 13th, 1938—Water from mains of the Manchester Corporation, sample taken from another source. B. Coli not found in 100 c.c.

January 27th, 1938—Sample from well at a Cottage. Chemical Analysis, County Analyst reported—"A contaminated water unfit for use as source for drinking water." Water is now supplied to this cottage from the mains of the Manchester Corporation.

February 9th, 1938—Water from mains of the Manchester Corporation. Chemical Analysis—Result Satisfactory.

February 9th, 1938—Water from mains of the Manchester Corporation, sample taken from another source Bacteriological Examination—result satisfactory.

April 25th, 1938—Water from well at Brookside Farm, Bacteriological Examination—result satisfactory.

May 9th, 1938—Water from mains of the Manchester Corporation, Bacteriological Examination—result satisfactory.

May 9th, 1938—Water from the mains of the Manchester Corporation, sample taken from another source—result satisfactory.

May 10th, 1938—Water from well at "Brookside Farm," Chemical analysis, "Results show evidence of pollution."

May 25th, 1938—Water from well at "Brookside Farm," Chemical analysis—result unsatisfactory. Bacteriological Examination shows no infection of the water.

July 21st, 1938—Water from well at "Brookside Farm," Chemical Analysis—Results indicated that water was contaminated.

July 21st, 1938—Water from well at "Brookside Farm," Bacteriological Examination. "Count at 22°C. reported high, otherwise the results were satisfactory."

November 22nd 1938—Water from the mains of the Manchester Corporation. Chemical Analysis—results satisfactory.

November 22nd, 1938—Water from the mains of the Manchester Corporation, sample taken from another source. Chemical Analysis—result satisfactory.

December 29th, 1938—Sample of water from well at "Holly Tree Farm," Clay Lane, Timperley. County Analyst's report similar to that on previous samples. No objection from standpoint of chemical analysis.

## Drainage and Sewerage.

The Consulting Engineer engaged by the Corporation to report upon the sewage disposal works at Woodcote, had not completed his scheme for submission to the Corporation at the end of the year.

#### Rivers and Streams.

The inspection of rivers and water courses from the point of view of pollution is in the hands of the River Mersey and Irwell Joint Committee.

The North East Cheshire Rivers Catchment Board have executed certain work to the main rivers in the area.

#### Closet Accommodation.

During the year, 164 waste water closets have been converted to fresh water closets on the Linotype Estate by the Company. The work was executed by the Company at their own cost. 3 Privy Closets have been converted to water closets.

## Public Cleansing—Collection and Disposal of Domestic and Trade Refuse.

The refuse is collected weekly from all premises where dustbins are provided. The few ashpits which remain are emptied about once per month by a vehicle hired for the purpose. The pails in the district are emptied once in each week.

The vehicles used for the purpose are as follows:—

2 seven cubic yard S.D. Freighters purchased in April, 1930.

2 eight cubic yard Leyland Waggons new in 1932.

1 ten cubic yard S.D. Freighter purchased in 1936.

Having regard to the age of the above vehicles it must be expected that an increase in the running costs will occur during the year 1939.

The Corporation decided to purchase an 11.3 Cubic Yard S.D. Freighter, but it had not been delivered at the end of the year.

The following are the latest figures as reported to the Ministry of Health, namely, costs for the year ended March, 1938.

Gross Expenditure Gross Income       5,838 88       5,666 88       1,770 1,215 7,608 201       7,608 201       6,88 201         Net Cost        5,750 5,578 1,657 1,123 7,407 6,700         Unit Costs. Gross Expenditure per ton       s. d.       s. d. s. d. s. d. s. d. s. d.       s. d. s. d. s. d. s. d.       s. d. s. d. s. d. s. d.	,

Net Cost per 1,000 of population	population et Cost per 1,000 houses or premises	~	
collected 495 480 142 97 637 577	colloated	142 97 637	637 577

Weight of Refuse collected = 10,611 tons 60% actual weights.

#### Refuse Disposal.

The disposal of the refuse is carried at the refuse tips at Golf Road, and the Sewage Disposal Farm. Something like three-fifths of the refuse is disposed of at Golf Road, and the remainder at the Sewage Disposal Farm.

Waste paper is baled and despatched to the Thames Board Mills, near Warrington.

For some time there has been no demand for old metal and galvanised material. This has to be stacked on the refuse tips and has become unsightly.

Table of work executed during 1938 is as follows:—

#### Ashpits.

No. of houses relieved	• • •	 4228
No. of privies emptied		 114
No. of wet ashpits emptied	• • •	 84
No. of pails emptied	• • •	 4078
No. of dry ashpits emptied	• • •	 433
No. of loads removed	• • •	 508

#### Ashbins.

No.	of	houses relieved			• • •	609193

#### Shops.

No action has been taken under the Shops Act, 1936, nor under the Shops (Hours of Closing) Act, 1928.

#### Smoke Abatement.

14 Smoke observations have been taken during the year. No legal proceedings were taken.

## Swimming Baths and Pools.

Samples of water from the Swimming Baths which are the property of the Corporation have been examined, and were reported upon as being satisfactory.

## Sanitary Conditions of Elementary Schools.

On June 14th, 1938, a communication was received from the County Medical Officer of Health enclosing a report on the sanitary conditions of schools in the area.

The report had been considered by the County Education Committee, and was forwarded to the Corporation.

Each school mentioned in the report was inspected and interviews took place, between representatives of the Managers and the Council.

Certain improvements have been carried out as a result of the negotiations, but it is not possible to enforce a standard of amenities under the Public Health Act, 1936.

## HOUSING.

1.	Inspec	ction of Dwelling-houses during the year:-	
	(1) (	(a) Total number of dwelling-houses inspected	
		for housing defects (under Public Health or	
		Housing Acts)	370
		(b) Number of inspections made for the purpose	874
	(2)	(a) Number of dwelling-houses (included under	
	, ,	sub-head (1) above) which were inspected and	
		recorded under the Housing Consolidated	
		Regulations, 1925—1932	56
		(b) Number of inspections made for the purpose	140
	(3)	Number of dwelling-houses found to be in a	
		state so dangerous or injurious to health as	
		to be unfit for human habitation	15
	(4)	Number of dwelling-houses (exclusive of	
		those referred to under the preceding sub-	
		head) found not to be in all respects reasonably	
		fit for human habitation	365
2.	Reme	dy of Defects during the year without service	oi
	Forma	al Notices:—	
		Number of defective dwelling-houses rendered	
		fit in consequence of informal action by the	
		Local Authority or their officers	228
3.	Action	under Statutory Powers during the year:-	
		eedings under sections 9, 10 and 16 of the	
\ /	Hous	sing Act, 1936:—	
	$(1)$ $\Gamma$	Number of dwelling-houses in respect of which	
	1	notices were served requiring repairs	76

	(2)	Number of dwelling-houses which were rendered	
		fit after service of formal notices:—	
		(a) By owners $\cdots \cdots \cdots$	20
		(b) By Local Authority in default of owners	Nil
(B)	Pro	ceedings under Public Health Acts:—	
	(1)	Number of dwelling-houses in respect of which	
		notices were served requiring defects to be	
		remedied	14
	(2)	Number of dwelling-houses in which defects were	
		remedied after service of formal notices:—	
		(a) By owners	14
		(b) By Local Authority in default of owners	Nil
(c)	Pro	ceedings under sections 11 and 13 of the Housing	
	Act	, 1936 :—	
	(1)	Number of dwelling-houses in respect of which	
		Demolition Orders were made	5
	(2)	Number of dwelling-houses demolished in	
		pursuance of Demolition Orders	Nil
(D)	Pro	ceedings under section 12 of the Housing Act,	
	1936	6:	
	(1)	Number of separate tenements or underground	
		rooms in respect of which Closing Orders were	
		made	Nil
	(2)	Number of separate tenements or underground	
		rooms in respect of which Closing Orders were	
		determined, the tenement or room having been ren-	
		dered fit	Nil
4.	Hous	sing Act, 1936.—Part IV.—Overcrowding:—	
		(i) Number of dwellings overcrowded at the end	
		of the year	5
		(ii) Number of families dwelling therein	5
		(iii) Number of persons dwelling therein	46
	( <i>b</i> )	Number of new cases of overcrowding	10
		reported during the year	3
	(c)	(i) Number of cases of overcrowding relieved	0
		during the year	14
		(ii) Number of persons concerned in such cases	108
			100

(d)	Particulars of any cases in which dwelling-	
	houses have again become overcrowded after	
	the Local Authority have taken steps for the	
	abatement of overcrowding	Nil
( <i>e</i> )	Any other particulars with respect to over-	
	crowding conditions upon which the Medical	
	Officer of Health may consider it desirable to	
	report	Nil

#### NEW HOUSES ERECTED IN THE DISTRICT.

Houses erected by Private Enterprise ... 272
Houses erected by the Local Authority ... 132

### HOUSING ACT, 1936.

#### Clearance Areas.

The position with regard to the seven clearance areas at the end of the year was as follows:—

Chapel Street and Albert Street—63 houses—all vacated except 7 common lodging houses.

Duke's Cottages off Atlantic Street—8 houses—all vacated and demolished.

Lord Street and Role Street—8 houses—all vacated.

Baker Street, Timperley—12 houses—all vacated.

Washway Cottages, off Manchester Road, West Timperley—7 houses—all vacated.

Aimson Road, off Stockport Road, Timperley—3 houses—all vacated.

Skelton Junction Cottages, off Moss Lane, Timperley—5 houses—all vacated.

During the year under review, this department has been responsible for the removals and rehousing of tenants from Slum Clearance Areas and overcrowded houses.

The furniture and effects from 91 houses have been removed and fumigated with Hydrocyanic Acid Gas before being taken to the new Council Houses. The bedding in each of these was removed to the Isolation Hospital and treated by high pressure steam.

65 houses have been fumigated, and there still remain 27 houses to be so treated.

This work was in progress at the end of the year.

The work of fumigation is carried out by a firm of contractors employed by the Council for the purpose.

On the 1st October, 1938, I became the whole-time Medical Officer of Health for the Borough. I then instituted special clinics for immunisation against Diphtheria. One such clinic was held weekly at each of the two welfare centres. At the end of 1938 the total number of children fully immunised at the clinics was 766. In addition to this number 112 children had been immunised at the Isolation Hospital and a further 260 had been immunised by private practitioners with prophylactic material obtained free of cost at the Town Hall, making a total of 1,138 children protected within the Borough up to December 31st. 1938.

It is with pleasure that I again acknowledge to the Officials of the Health Department, especially to the Chief Sanitary Inspector, the Senior Health Visitor and the Clerk in the Sanitary Department, my indebtedness for their valuable help to me in drawing up this Report.

I have the honour to be, Gentlemen,

Your obedient Servant,

R. REID DUNCAN, M.B., Ch.B., D.P.H.,

Medical Officer of Health.
